CONNECTIONS™ Program Information for Principals and Teachers

The goal of the CONNECTIONS™ program is to provide high school students with an immersion opportunity that creates a better understanding of the multicultural nature of our schools and society. The program provides students with the opportunity to connect with students from all over Alberta, and learn new ways of thinking about cultures that are unfamiliar to them.

During this process leadership skills are developed in cross-cultural understanding, race relations, anti-racism, discrimination, stereotyping and environmental stewardship.

In order to maximize the impact of the program and students' success, it is important that they complete both the pre-trip and post-trip components.

With the newly developed and expanded Alberta CTS (Career and Technology Studies) Curriculum, there are now several options available for offering the CONNECTIONS™ Program for credit at your school. The supporting materials that we will provide you will help to ensure the success of your students and the lasting impact of the program on your school. Offering students the option of earning CTS credits is entirely at the discretion of each participating school.

The following CTS information package includes:

- A. An optimal course bundle
- B. Possible alternatives to the course bundle for students with conflicting credits
- C. CTS supporting materials for optimal course bundle including course rubrics, components, and outcomes.

A. Optimal Course Bundle of Career and Technology Studies (CTS) Courses

Students enrolled in the CONNECTIONS™ Program have the opportunity to gain 5.0 credits for the program. Two of these credits will come from a combination of the pre-trip work and onsite component. One credit will come strictly from the onsite. Two credits can be earned for completing the project and online work after the program is completed. The work for these two credits will begin onsite and end after the program.¹

In order for students to earn these credits, they will need to be evaluated by the sponsoring teacher from your school. Students do not have to earn credits for the program or complete all of the credits associated with the program. It is *encouraged* that they complete ALL components of the CONNECTIONS™ Program for maximum benefit to themselves and to your school.

¹ There is flexibility in how students achieve the outcomes of the rubrics. Most students will meet the outcomes as they are addressed on the course rubrics but some students due to time constraints and other course loads may need some extra time. Questions about how these materials can be adjusted to meet the individual needs of your students can be answered while at the onsite portion of the program or earlier by contacting CONNECTIONS™

Below is the optimal course bundle that students will gain credit for through the successful completion of the CONNECTIONS™ Program.

CTS Module	Connections Course Component
Perspectives on Interpersonal Relationships (HSS 2030)	pre-trip/onsite
Leadership Fundamentals I (HSS 1080)	pre-trip/onsite
Introduction to Stewardship (ENS 1010)	onsite
HSS Project A (HSS 1910)	onsite/post-trip
Speaking and Presenting (HSS 1090)	post-trip

B. Possible Alternatives to the Course Bundle for Students with Conflicting Credits

The updated CTS curriculum provides the opportunity for flexibility and there is the possibility that some students will already have some of the credits that are offered for the program. If this is the case, there are possible alternative courses/modules that can be offered in place of these conflicting credits. Listed below are the possibilities for alternative courses. The most ideal fits are on the left and the ones that may require additional assignments or variations in some pieces of the program are further on the right.

Optimal CTS Module	Possible Alternatives- <i>Listed with best fit to the left</i>			
<i>Perspectives on Interpersonal Relationships (HSS 2030)</i>	Controversy and Change (LGS 3060)*			
<i>Leadership Fundamentals I (HSS 1080)</i>	Leadership Fundamentals II (HSS 2080)	Leadership Fundamentals III (HSS 3080)		
<i>Introduction to Stewardship (ENS 1010)</i>	Living with the Environment (ENS 1040)	Environmental Health and Safety (ENS 2040)	Environmental Ethics (ENS 2050)	Energy and the Environment (ENS 3040)
<i>HSS Project A (HSS 1910)^</i>	HSS Project B **	HSS Project C **	HSS Project D ***	HSS Project E***
<i>Speaking and Presenting (HSS 1090)</i>	Digital Presentation (INF 1070)			

*students' pre-trip work may vary slightly

**must be connected to one HSS course/module at the 20 level (ex HSS 2080 or HSS 2030)

***must be connected to one HSS course/module at the 30 level (ex HSS 3080)

^^in the unlikely event that students have conflicts for all stated project modules we will work it out case by case.

5.2 create a connection between a personal inventory and occupational choices	Activity B		

ENS 1010: Introduction to Stewardship

Marking Rubrics

There may be some questions about marking the materials in the pre-trip portion of the “Habitat in the Balance” program (Activity A). Please feel free to contact the CONNECTIONS™ Program Coordinator with any questions that you may have. There will be onsite support for marking these materials.

Teacher’s note: The “Activity A” marking rubric breaks each perspective down for marking. Students should read and report on all seven perspectives to gain full credit for ENS 1010 (the SEEDS website suggests that students examine two perspectives to prepare for the town hall. Please note the discrepancy)

As a member of family group # ____,

I need to understand the point of view of the _____

Using the Habitat in the Balance Website, find information under the following topics so that you can really understand your stakeholder’s point of view about the impact on the Arctic of developing and transporting gas.

	advantages / + effects	disadvantages / - effects	other points and questions
From “ <u>Situation</u> ”- impact of development			

<p>From "Background" <u>Resource</u></p>			
<p><u>Historical</u> - past events, decisions, and actions,</p>			
<p><u>Scientific</u> - knowledge about the natural world,</p>			

<p><u>Technological</u> - plans and practical solutions,</p>			
<p><u>Environmental</u> - how people interact with nature</p>			
<p><u>Economic</u> - details of financial considerations</p>			

<p><u>Societal</u> - how people interact with each other</p>			
<p><u>Political</u> - the way people govern themselves.</p>			

Use the information you have learned.

- Review your notes you have made.
- Decide which one of these three options is the best choice for Arctic natural gas development and transportation from the point of view of the stakeholder you represent.
- Also consider why the other options are not as good.

If you wish to use other information as well, please do.

<u>OPTIONS</u>	<u>REASONS</u>
1.refuse to have natural gas extracted	
2.move natural gas by underground pipeline	
3.move liquefied natural gas (LNG) by ship	

Is there other information you need to understand to make the best decision? What do you need to know more about?

HSS 1910 (Project A): CONNECTIONS™ Project Planning Information

Each student that participates in the CONNECTIONS™ Program will complete a project that meets the following curricular guidelines and expectations.

Project Course Code HSS 1910	Project Course Title Project A
--	--

CTS courses that the project course connects with	When the credits were or will be awarded?	Occupational Area(s)
CTS introductory course <i>Fundamentals of Leadership (HSS 1080)</i>	<i>Indicate Date</i>	<i>Human and Social Services (HSS)</i>
CTS introductory/intermediate course <i>Perspectives on Interpersonal Relationships (HSS 2030)</i>	<i>Indicate Date</i>	<i>Human and Social Services (HSS)</i>

Project Details

Students will create a project within their school that demonstrates their learning from the pre-trip, post-trip, and onsite components of the CONNECTIONS™ Multicultural and Environmental Leadership program. Students will write a proposal and a plan for the completion of this project and carry it out before the end of the school year. This project will raise awareness concerning issues of discrimination and diversity within their schools and communities.

What are the attitudes, skills and knowledge that will be enhanced and extended by completing this project?

This project will create the opportunity for students to share the knowledge that they gained at the CONNECTIONS™ Program with regards to interpersonal relationships, conflict resolution, and creating safe and caring spaces within their schools and communities. It will be an opportunity for students to make a difference and a positive change at their schools.

What will be needed to accomplish this project (e.g., tools, materials, money, people, time)?

See attached “SAMPLE CONNECTIONS™ PROGRAM Group Project Planning Sheet” for planning details.

Connected courses	Outcomes being linked
Course Name and Code <i>Fundamentals of Leadership (HSS 1080)</i>	Student will: 2. create a personal growth plan for leadership development 2.3 design at least two SMART (specific, measurable, attainable, realistic, timely) goals for personal leadership development 2.4 identify strategies for achieving goals Student will: 3.3 demonstrate fundamental leadership behaviours and skills while participating in a specific leadership team, including: 3.3.1 effective communication skills 3.3.2 interpersonal skills 3.3.3 personal management skills
Course Name and Code <i>Perspectives on Interpersonal Relationships (HSS 2030)</i>	Student will: 1.3 compare how elements of attitude, respect, cooperation, reciprocity and etiquette support the healthy development and maintenance of all types of relationships Student will: 3.3 demonstrate effective strategies for preventing problems or conflicts 3.3.1 early intervention 3.3.2 avoiding labelling, stereotyping and bias 3.3.3 making constructive personal changes where possible and appropriate 3.3.4 walking away from a fight 3.3.5 changing the subject 3.3.6 refocusing a conversation to the positive 3.3.7 controlling reactive responses and emotions

What will be accomplished by linking these Outcomes in this project? Why were these courses and key Outcomes chosen?

The CONNECTIONS™ program gives students the opportunity to explore issues in their community around stereotyping, discrimination, and diversity education. This project gives students the opportunity to expand their own understanding and knowledge by teaching others about what they have learned. These particular outcomes are focused on these issues and will ensure that student projects reflect the program priorities of creating more compassionate, caring, and empathetic communities.
